Information Notice

Dear Resident

One of the concerns facing residents within Great Ecclestone is that of speeding along Raikes Road, West End and Copp Lane.

The Parish Council has decided to invest in a Speed Indicator Device (SpiD). Working in conjunction with Lancashire County Council the locations have been agreed, see attached maps.

As a vehicle approaches the sign it checks the speed and if required illuminates a message which can include a speed, happy/sad face, safety message etc. Through considerable research it has been proved that SpiD's are more effective than speed cameras.

Due to the cost of a SpiD, a single device has been purchased and it will be rotated around the 3 locations.

The Parish Council trusts that residents will be supportive of this initiative.

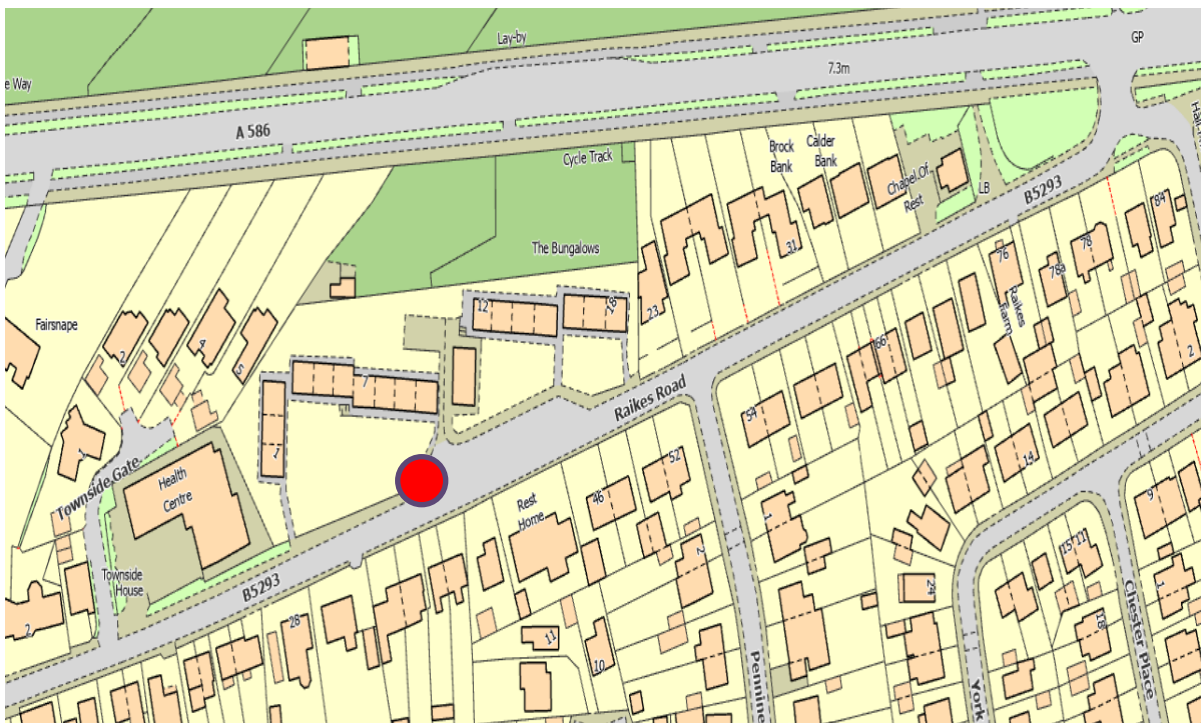

Should you have any concerns, please contact:-

Hugh Glover,

Clerk to Great Ecclestone Parish Council
